## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by Schmidt.

Schmidt discloses a seal comprising a sheet of flexible material 16 with an internal orifice. The flexible material comprises a self-adhesive skin 24. The sheet has a first side, second side, outer perimeter, thickness and inner perimeter. The first side has a first surface (e.g. top part in Fig. 2) and a second surface (e.g. bottom part) each extending from the inner perimeter to the outer perimeter. A lip (lower bead 28 on top half of the gasket) has a height greater than the thickness of the sheet and is only on the first surface.

### ***Allowable Subject Matter***

3. Claims 1-7 are allowed.

### ***Response to Arguments***

4. Applicant's arguments filed 8-27-07 have been fully considered but they are not persuasive.

The rejection of Schmidt has been maintained for claim 8. As seen in the figures, the top part has two lips, but the bottom only has one. Thus the lip that does not continue to the bottom

portion has been identified as the lip only on the first surface as required by the claim. In other words, the claim does not state that the second surface does not have a lip.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alison K. Pickard whose telephone number is 571-272-7062. The examiner can normally be reached on M-F (9-5).
